Adama, Astu 🏠

SUMMARY

Dynamic individual with a strong passion for technology, known for my enthusiasm and drive to excel. I have embraced challenges and seized opportunities in areas such as the Ethiopian Collegiate Programming Contest (ETHCPC) and artificial intelligence (AI). Through A2SV's community-driven program, I enhanced my Data Structures and Algorithms(DSA) skills and earned a certificate for my participation in the ETHCPC, where I competed using Python. Additionally, I took part in the AI Impact Hackathon.

PROFESSIONAL EXPERIENCE

ETHCPC Participation

Ethiopian CPC ASTU | October 2024

- Competed in the Ethiopian Collegiate Programming Contest (ETHCPC) for the first time, collaborating with teammates to solve complex problems and build resilience as a team.

- Leveraged the experience from ETHCPC to identify areas for growth, strengthen teamwork, and lay the foundation for future success in the International Collegiate Programming Contest (ICPC).

A2SV AI impact Hackathon Partcipation

A2SV AI Impact Hackathon, Addis Ababa | July 2024 to August 2024

- Advanced to Quarterfinals: Reached the Quarterfinals of the 2024 A2SV Hackathon, the largest hackathon in Africa.

- Team Collaboration: My team was and selected among the top 32 out of over 690 project submissions, in a dynamic event filled with energy and excitement, working alongside Africa's brightest talents to build impactful projects for our community .

Software Developer Intern

IE-Network Solutions Addis Ababa | July 2024 to August 2024

- Developed a full-stack web application, SmartRecruit, enabling job applicants to sign up and apply through the platform with comprehensive dashboard for HR, team leads, and managers to manage and track applications.

- Designed and implemented the frontend using React and Tailwind CSS, and the backend with Node.js and TypeORM, with learning the technologies from scratch.
